

The SANDMAN STORY

THE SUNSHINE FAIRY.

"GOOD morning," said Father as little Henry came into the dining room. "Isn't this a nice, bright morning, son?"

Henry did not answer. He jerked his chair from the table and slid into it with a sullen air, for Henry was cross because his mother had not let him put on his new shoes that morning.

"Heavy black clouds seem to be bothering you," said Henry's father. "Better drive them away or you will have an unhappy day."

But Henry did not answer. He kept his eyes on his plate, and a frown on his face, but when he pushed his dish

away from him and spilled the cream his father told him to go to his room and stay there until the cloud cleared from his face.

Henry did not quite understand about the "heavy, black cloud," but he did know, of course, that he had behaved badly, so he went to his room feeling that everyone was treating him unkindly.

"Have not got a heavy cloud on my face," he said, looking in the mirror. Then he drew the shade because someone had once told him that little fairies danced in the sunlight when it streamed into the room.

"Get out of my room," said Henry. "I won't have any fairies in here. I don't like girls, and all fairies are girls. Anyway, I don't believe in fairies, only those in picture books."

Henry was very cross as you see, and he did not want to see the sunshine, so he threw himself on his bed on his back to think over how cross everything was that morning.

All at once he heard some one crying. It seemed to come from outside his window. So Henry jumped up and peeked out.

The tiniest creature dressed in silver sat on the sill of the window crying.

"What are you crying about?" asked Henry, who really was a very kind little boy.

"I can't get in to do my work," said the little creature. "It is all dark inside and they shut me out. I am the

sunshine fairy and I have to dance when the sun shines and make people happy. But how can I when they will not let me in?"

Henry raised the shade and up jumped the little fairy and danced into the room on the sunshine as it streamed in.

"Oh, haven't you any face?" asked the little creature, "or is it behind old black cloud? Sometimes he does hide faces, but I most always can drive him away."

Henry went to the mirror, and sure enough this time he found that in place of his face there was a heavy black cloud, through which he could see but dimly.

He looked at the sunshine and the little fairy had been joined by hundreds of others who were dancing about in the jolliest manner.

Henry forgot all about the cloud as he watched them, and presently a stream of sunshine cleared away the cloud and Henry jumped up, for you see he was dreaming all the time he had fallen asleep.

The wind had blown the shade and into the room came the bright sun, but Henry could not find the fairies though he looked everywhere.

"They did drive away heavy black cloud," thought Henry, "and I do feel happier. Perhaps there are some fairies in the sunshine after all."

The Right Thing at the Right Time

By MARY MARSHALL DUFFEE

WHEN SHE WALKS.

"A little neglect may breed mischief," Franklin.

WHEN walking with a woman it is customary for the man to ask to carry any parcels she may be burdened with. It is a woman's privilege to insist on carrying them herself, but remember that it is very embarrassing for a man to walk with a woman who is burdened as, besides feeling regret that he cannot aid her, he is put in a false position by those whom he may meet.

Every well-bred woman should know that it is no longer considered the right thing for a man to take her arm in walking unless she is feeble or the way hazardous. If she happens to be accompanied by a man who is not aware of this fact she should not take offense, but if he takes her arm she should ascribe it to his ignorance of that rule of good breeding and restrain him by simply assuring him that she

can manage much better when unaided.

If a woman is overtaken or overtakes a man of her acquaintance she is privileged to ask him to accompany her as far as their ways go together, though needless to say she would say this only to a close acquaintance. She should not do this, however, when he is accompanied by another woman and would not usually wish to when he was accompanied by another man.

When taking a pleasure walk together it is always the woman's privilege to set the pace and make suggestions as to the direction in which the walk should be taken.

If a woman chances to see that a stranger has dropped something, what should she do? This is a question that sometimes comes up. She should not stop to pick it up unless the man is decidedly older than she and she is very young. She should courteously attract his attention to the fact that he has dropped the article and leave him to pick it up for himself. However, if she is walking behind the one who has lost the article and not to pick it up for him might mean that it would be trodden upon she may in common sense stoop and get it.

HOW DO YOU SAY IT?

By C. N. LURIE

Common Errors in English and How to Avoid Them

"TO STOP AND TO STAY."

HOW frequently do we hear some one say, or read in a newspaper, "He is stopping at the Waldorf-Astoria hotel." A moment's reflection should tell the writer or speaker that a person does not "stop" at a hotel unless he walks, or drives to the hotel and halts his progress there. It is proper to say, "The parade stopped at the hotel," meaning that the parade ceased its motion when it reached the hotel. But the parade could not "stay" at the hotel. A person makes a "stay" at a hotel, not a stop, and he stays there. One should not say, "I stopped at the summer resort six weeks," but "I stayed there six weeks."

The true meaning of the word "stop" was well understood by the man who did not invite his professed friend to visit him. He said: "If you come at any time within ten miles of my house just stop," says one authority of English.

YOU NEVER CAN TAME A WILD-CAT

Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Advertisement.

MINISTER DISCUSSES HIS WIFE'S TROUBLES

Rev. A. H. Sykes, former pastor of the Watkins Park Presbyterian church, Nashville, Tenn., says:

"After seeing what Tanlac has accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have ever seen anything give such prompt results. Mrs. Sykes had been in delicate health for ten months, suffering from stomach trouble and nervous breakdown."

"I frequently, sought medical advice but Tanlac is the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household duties. I think it only a short time until her health will be fully restored."

Tanlac is sold by leading druggists everywhere.—Advertisement.

Forgers Use New Method

An original touch in forgery is reported by the Paris correspondent of the London Daily Mail. Making forged notes dirty in order that they might look real is said to have been the method adopted by four men who have just been arrested at Limoges on a charge of counterfeiting the small brown one-franc notes (nominally 100.) which are in circulation in Paris owing to the shortage of silver ones.

After printing off bundles of notes of a face value of 47,000, the men, it is stated, buried them in the ground for a fortnight. The notes then had a crumpled and dirty appearance as if they had been a long time in use, and were readily accepted. In some cases the forged notes were accepted in bundles of 60 at local banks.

Facts about your name: its history, meaning, whence it was derived, significance, your lucky day and lucky jewel

THERESA.

ONE of the prettiest of feminine names which for some reason has always been associated with France and yet is essentially English, is Theresa. It is one of the many feminine names which come from the harvest and its original source is a Greek word meaning to reap or gather in a crop.

The first to bear the name was a Spanish lady, the wife of a Roman noble called Paulinus. Both Paulinus and his wife were devotees of St. Jerome. The name Theresa had great vogue in Spain and is finally found as Teresa on a throne in Leon in the Tenth century.

The most noted Teresa appears in the Sixteenth century when the Roman Catholic church produced the remarkable saint of that name through the Spanish connection of the house of Austria; the princesses of Spain and Germany were frequently christened Teresa.

In France it became Terresse through the queen of Louis XIV and Provence called it Tereson. The empress-queen added greatly to its fame, her noble spirit winning all hearts.

St. Theresa of course brought it to

England through the Roman Catholic religion, though its vogue there did not begin until after the Reformation.

England also calls her Terry and Tracy; France makes her Therese. She is Theresa in Portugal and Teresa and Teresita in Spain. Italy uses Teresa and Teresina, in Germany she is Theresa.

Theresa's talismanic stone is amber. It promises her good health, wards off evil spirits and warns approaching illness by paling in color. Thursday is her lucky day and three her lucky number.

THE REAPING MACHINE.

ALTHOUGH we are accustomed to regard reaping by machinery as a modern art, there are records that in Pliny's time the Gauls used a crude comb-shaped affair of knives to strip the heads from the standing grain. The first real patent on a reaping machine was granted to John Boyce of England in 1790. Richard French and J. J. Hawkins received the first American patent rights in 1803. But it remained for McCormick, in 1831, to make and demonstrate the first practical reaping machine.
